

Press Release

Twelve Oaks Advisors, LLC announces team addition

Cumming, GA | January 8, 2018 Twelve Oaks Advisors, LLC officially announced today the recent addition of Paul Kannaley; an accomplished technology and business executive, to the Twelve Oaks Advisors' team. Paul specializes in developing IT business strategies and successful delivery execution for companies challenged with either digital transformation or competitive inflection points that require optimization of their technology ecosystem.

Paul is a "big picture" strategic thinker and enterprise problem solver with broad knowledge of multi-functional, multi-site, global organizational processes in product and service Fortune 500 companies. Paul has successfully led the entire life cycle of enterprise software and solution delivery and his digital IT transformation experience spans both on-premise and cloud platforms with deep ERP and CRM expertise in SAP/HANA, ServiceNow, Oracle and Salesforce.

Paul brings comprehensive experience for transformational success with a business, process and technology mind-set. This unique knowledge was developed based on a combination of earlier career achievements that spanned a variety of functional business leadership roles coupled with his more recent in depth IT solution and service delivery responsibilities. Paul specializes in leading client-consulting teams to help companies quickly analyze and optimize their business processes and technology investments accelerating the time to value. Paul states "We all know clients want to grow, generate more revenue, and stay within compliance guidelines and my super power is getting the job done with measurable results". Paul has successfully delivered his unique enterprise leadership perspective providing executive oversight of projects varying from small assessments to \$325M+ mega-size programs during his tenure at GE, Cisco, Siemens, and Dell-EMC.
